General info sheet for foam inlay for tin boxes

Dear customers,

to be able to work optimally on your inquiry, we ask to us some baseline data, at best also with sketch/ drawing.

- the minimum order quantity of foam: 300 pieces or an order value for approx. 250€
- the delivery time with punching will take about 3 – 4 weeks
- for foam inlay with punching result additional tooling costs
- ground foam inserts must be basically at least 5 mm high and 10 mm wide between single punching and the same in case of margin width (space between margin width of tin box and single punching has to be also 10mm).
- please inform us of the other whether you wish a 1-part foam insert (only base ground foam), a 2-part insert set (ground foam + foam inlay with punching for product) or a 3-part insert set (ground foam + foam inlay with punching for product + thin cover foam for the top)
- we offer all foam inserts only in the anthracite tone
- Release drawings and foam pattern witch punching before placing of order will be extra charged.

We ask for your understanding that preparing of the offer can take some days
